REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The present application relates to an apparatus and method for compressing and expanding video data performed in the DCT domain. The various related prior art does not anticipate or render obviousness means for receiving pixel values organized in frames each comprising a matrix of video blocks, each video block comprising a video matrix of N pixel values, and processing circuitry arranged to set each element in a prediction matrix to an initial prediction value wherein the step is performed by performing a discrete cosine transform on the video matrix to obtain a transform video matrix of N coefficients, selecting n of the coefficients, setting the N-n remaining coefficients to zero to obtain an initial prediction transform matrix of initial prediction coefficients, and performing an inverse discrete cosine transform on the initial prediction transform matrix to obtain a matrix of N initial prediction values and in combination of other limitations as specified in claims 1, 9, 15 and 18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nhon T. Diep whose telephone number is 571-272-7328. The examiner can normally be reached on m-f.
